

All you need to do is copy and paste the below code into the code of your website wherever you want the logo to appear.

```
<div style="width:105px;height:44px;background:
url(http://www.tradesmonitor.com.au/contractor-management.jpg) no-repeat;"><a
style="display:block; width:105px;height:44px;text-indent: -999px;overflow: hidden;"
href="http://www.tradesmonitor.com.au/about.asp" title="Contractor
Management">Contractor Management</a></div>
```

If someone clicks on the logo, it will take them to our website so they can find out what the accreditation means. We are unable to provide technical support for you in doing this, so if you don't know how to do this yourself, you will need to ask your web designer to assist you.
